the furious blacksmith, in the short time, and went hoeing down Gumbo's cellar with a frightful velocity! The tirings and bellowings of Deacon Pugh took sides against the Quaker antagonist, and the shopboys of Abraham, seeing their employers thus beset, came to the gender, while two Irishmen, full of fun and frolic, believing it to be a "free fight," tried their hands and skins upon the combatants indiscriminately; so that in less than half an hour, the quiet and happy town of Frogtown was shaken from its propriety by one grand and sublimely ridiculous and terrible battle. Heads and windows were smashed—children and women screamed—dogs barked—dust flew—labor ceased—and so furious, most and excited became the whole community, that a quiet looker on, if there had been any, would have sworn that the evil ones were in Frogtown.

A heavy thunder storm finally put an end to the row; the dogs were more or less killed; a child severely wounded; a man scalded; a wagon broken—the horse ran himself to death—his owner was beaten cruelly by Bob Carter whose wife and the wife of many others were dangerously cured; the painter was crippled; dry goods ruined; a town constable, Lawyer Hooks, a Quaker and a deacon, two Irishmen, Joe Tucker, Squire Cockham, and some fifty others shamefully whipped. Lawsuits ensued, feuds followed, and the entire peace and good repute of Frogtown annihilated—all by a remarkable dog fight.

EXECUTIVE DEPARTMENT,
Augusta, August 18, 1858.

The adjourned session of the Executive Council will be held at the Council Chamber, in Augusta, on *Monday*, the twentieth day of September next.

ATTEST:
NOAH SMITH, Jr., Secretary of State.

Henry Clay's Views, compared with Modern Democracy.

Senator Hammond, in his recent dinner speech at Charleston, claimed that the South, although it might be defeated in the attempt to make Kansas a slave State, had nevertheless won "a great moral triumph" in the contest. By this he meant that slavery has been nationalized by the Dred Scott decision, accepted and sustained as it is by the Democratic party—and that "agitation," as he assumed, had lost its energy and strength both in Great Britain and in this country. It is now confined, he thinks, to a few wrong-headed fanatics in the Northern States; and he flatters himself it will soon die out, and the divine origin and blessedness of Slavery be acknowledged throughout the length and breadth of the land. "Just and proper ideas" upon this subject have been disseminated, he says, within a few years past, and the "noble examples of Washington and Jefferson," on this slavery question are no longer to be followed by modern Americans—or at least by modern *Democrats*. Mr. Hammond, and modern Democrats generally, regard abolition or emancipation to be but another name for *fanaticism*. How different is itself view from that which the noble and gallant Southerner, Henry Clay, entertained. Said that statesman and patriot:—

What would they who thus reproach us have done? If they would repress all tendencies towards liberty and ultimate emancipation, they must do more than put down the benevolent efforts of scattered Quakers. They must go back to the era of our liberty and independence, and muzzle the cannon which thunders a national joyous return. They must revive the slave trade and all its attendant atrocities. They must blow out the moral lights around us, and extinguish the greatest torch of all which America presents to a benighted world, pointing the way to their rights, liberties, and happiness. And when they have achieved all these purposes, their work will be yet incomplete. Their mind pervades the human soul, and requires the light of reason and the love of liberty. Then, and not till then, when universal darkness and despair prevail, can you perpetuate slavery, and repress all human and benevolent efforts in behalf of emancipation. Then, and not till then, when the cannon of Independence shall be blown out, all the moral lights around us are extinguished, and revive the slave trade, eradicate the light of reason and the love of liberty.—WHEN UNIVERSAL DARKNESS AND DESPAIR PREVAIL, then you can perpetuate slavery, and repress all human and benevolent efforts in behalf of emancipation.

This was the language of Henry Clay. It applies with crushing force to the pro-slavery-lack of modern Democracy, and to the Benjamins, the Cushings, and the Branches who once followed the banner of the gallant Kentuckian. It will not do to reply that while Mr. Clay's language alarmed broadly for emancipation, Mr. Hammond speaks merely of immediate abolition. It is not so. Mr. Hammond defends slavery *per se*, as a good and beneficient and proper institution—as the normal condition of the white and black races—as the basis upon which all "good society" rests. Hence he believes all talk about emancipation to be fanatical—but he says that he prophesies a great moral triumph for the South, although it might be defeated in the attempt to make Kansas a slave State. Defeated, he says, it has already succeeded, to a great degree, and thus given the South a "GREAT MORAL TRIUMPH."

Freemen! Shame! What say you?

Congressional Convention, Fifth District.

The Convention met according to the call, at Essex Corner, on Thursday, Aug. 19th.

The Convention was called to order by B P Strick, and of Sanger, Chairman of the District Committee, upon whose motion the Convention was temporarily organized, by the choice of Nathaniel Chamberlain of Foxcroft, President, and W. W. Rice of Hampden, and C. O. Palmer of Dover, Secretaries.

After some discussion on the part of W H McCrillis of Bangor, Going Hathorn of Pittsfield, John H Rice of Monson, Mr Boynton of Detroit, Pickard of Hampden, and others, it was

Voted, That the Somerset delegation be requested to bring forward a candidate for Congress.

A recess of half an hour was taken, to allow Somerset to make a selection.

A W Wilder of Skowhegan, chairman of the Somerset delegation, reported that that delegation had unanimously made choice of

HON. ISRAEL WASHBURN, JR.,

of Orono, as their candidate for Congress. This was received with thunders of applause.

Cheer after cheer was then given for Hon. Israel Washburn, Jr. the Republicans of Somerset, and the Republican cause generally.

Chas S Crosby of Bangor, then made a few remarks.

W H McCrillis of Bangor, chairman of the committee on Resolutions, reported the following, which were unanimously adopted:

Resolved, That the bill passed at the last session of Congress known as the "English Swindle," was a palpable violation of the doctrine of equal rights; that it was a discrimination in favor of a slave over a Free territory; recognizing the right of one to enter the Union with one-third or one half of the population required of the other, and that the Republicans of Maine do not admit any such superiority of slave drivers and slaves over free and intelligent white men, here in differing widely from the Democratic party of this State, which, at its recent Convention at Augusta, expressed its merely its acquiescence in, but its full and hearty approbation of, this measure, by declaring that it was "a HAPPY *agreement* upon differences of opinion in the spirit of brotherhood and patriotism."

Resolved, That the Republican party, by its adherence to cherished principles, has, under seeming defeat, achieved a great and substantial victory; it has arrested the extension of slavery and the slave power over territory purposely dedicated to that curse and blight by the repeal of the Missouri compromise; it has aroused the people of the free States to oppose and resist the monstrous doctrine announced by President Buchanan and Chief Justice Taney, that slavery exists in the territories in spite of the popular will, and that no power exists among the people resident therein, to prevent its ingress, or abolish it when there, so long as they remain under a territorial government; it has rendered Kansas secure of freedom and with a constitution as her people may adopt, in staying the progress of slavery it has accomplished one of the great objects for which it was formed; and experience has demonstrated, that if it would retain the advantage it now has of being sustained by the moral and patriotic sentiment of the country, it must hold fast to its integrity, and not suffer its strength to be wasted, its principles diluted, or its standard lowered, for the sake of winning the support and co-operation of those who have no living faith in the cause of freedom and equal rights.

Resolved, That to all of whatever name or party, who desire, with us, a "restoration of the government to the principles of Washington and Jefferson"; all who do not agree with Gov. Hammond of South Carolina, and the slaveholding Oligarchy which now rules the so-called Democratic party, that these great men "IN THE MATTER OF SLAVERY SET AN EVIL EXAMPLE"; all who deny the authority of the Dred Scott opinion, which, if sound law, *makes a Slave Nate of Maine*; all who desire the preservation of the Union in its integrity and power; and all who would have the expenditures of the government reduced from the enormous aggregate of nearly *one hundred millions of dollars* in a single year, in time of peace, to the actual and legitimate wants of the government, we extend a cordial invitation to unite with us on terms of perfect equality, in an organization rendered necessary by the aggressions of slavery and the cowardice and crimes of desperate men, who, by false professions and juggling pretences have stolen into the high places of influence and power in the land.

Resolved, That, whereas, in the recent vote in Kansas on the Lecompton constitution the citizens of that territory, so long afflicted by swarms of officeholders sent there to harrass the people, eat out their substance, and impose the curse of African slavery upon them, have despised the threat and rejected the bribe, it is now the duty of the friends of freedom throughout the country, to sustain them in the stand they have so nobly taken, and to rebuke the Administration for its efforts to override the popular will by means of a lavish use of the public money and the bayonets of the United States troops; and that the most effective way to do so is to send men to Congress who are at all points opposed to the policy of James Buchanan and the slave Oligarchy which he represents.

Resolved, That the reckless extravagance of the present administration in paying out near one hundred millions of dollars during the first year of its existence, to do which it depleted the treasury of near thirty millions, and, besides consuming the current revenue, has contracted debts to the amount of forty millions for which just cause of alarm to the people of the United States lest they should soon find themselves saddled with a great national debt; such as has forced so excessive a burden on the people of other countries; and as the country is now in a state of profound peace, there is no occasion or justification of such expenditure of the public money, and that the course of the Administration in giving out immense contracts allowing enormous profits to party favorites and unnecessary demagogues with the understanding, or agreement that they shall disgorge liberally for the purpose of corrupting the press and the people, is a practice that threatens to destroy the vitality of our republican system, and deserves and will receive the severest reprehension at the hands of *every friend* of Republican institutions.

Resolved, That the Republicans of Maine do not recognize the right of Southern slave-drivers to dictate to them, who they will send to Congress, and of their recent attempt to deprive the hardy and daring fishermen of New England of their hard earned fishing bounty was an earnest of threat—as is held by their apologists and defenders at the North—that the bounties shall be withdrawn if could the people of the North still persist in electing members of Congress opposed to the extension of slavery and the perpetual rule of the Southern oligarchy, they will answer this insult to their intelligence and patriotism as did the people of Massachusetts by the vote making Lecompton Constitution,—that they spurn the tribe, and will send such men to Congress as will compel the President and his supporters to respect their rights.

Resolved, That all experience has thereby that the friends of an Administration can never be relied on to defeat its favorite measures, and that only in a strong and united party can be found any hope of defeating the Southern or Democratic party in their warfare on the great interests of freedom, and the North; that the daily danger which the fishing interests have incurred or may incur hereafter, is from the Democratic party; that the bitterest revilers, they who shape the policy of the Administration, were the authors of the movement to destroy the bounties; that its whole support came from the Democratic party; that it was owing to the unflinching and united opposition of the Republicans in Congress that this interest was not struck down and abandoned to the fury of the slave-power.

Resolved, That the nomination of I. Washburn Jr. meets our hearty and unanimous approbation, and that his past history has shown him to be loyal and faithful to the interests and political sentiments of this State and District; and we pledge our united and untiring exertions to secure his triumphant re-election.

Resolved, That this Convention feel the most heart-felt gratitude to the people of Somerset, and to the Somerset candidates, for their enlarged patriotism in their nomination this day of Israel Washburn, Jr., and *from* this on hereafter our appreciation of their patriotic sacrifice for the good and the unity of the Republican party in this District.

John H Rice of Monson, T S Pullen of Dover, H M Plaisted of Bangor, Sam'l Hutman of Plymouth, Dr Tobey of Athens, and John K Russell of Skowhegan were appointed a committee to recommend a District Committee. They subsequently reported as that Committee—C H H Woodbury of Dover, S D Arnold of Skowhegan, J J Bell of Carmel, Josiah Crosby of Dexter, and John H Lynde of Bangor.

Cheers were then given for Messrs Norris and Brown of Somerset, opposing candidates, who tendered their cheerful acquiescence in the nomination.

E A Harding of Hampden, John K Russell of Skowhegan, and Russ A Snow of Atkinson, were appointed a committee to inform Mr. Washburn of his nomination.

The thanks of the Convention were tendered to the officers of the Convention and the proprietors of the Meeting House in which the Convention was held.

Voted, That the proceedings of the Convention be published in the Republican papers in the District. Adjourned.

A. W. WILDER, President.

WARREN W. RICE, C O PALMER, BENJ. P. REED, } *Secretaries.*

REPUBLICAN NOMINATION IN THE FOURTH DISTRICT.—We understand from a gentleman who came from Waterville yesterday morning, and was at the Convention of Wednesday until it closed, that the nomination was first referred to the Somerset Delegation by vote of the whole Convention; and that the Somerset Delegation being unable to agree upon a candidate, the Convention then balloted, and made choice of Hon. Freeman H. Morse, as has been stated.

The Charleston Mercury is greatly aggrieved that Bowdoin College has conferred its honors upon Jefferson Davis, at the same time as upon William Pitt Fessenden, Senator from Maine. The Mercury says:

Mr. Fessenden has been for many year one of the leading Abolitionists of Maine.—That Mr. Davis should be honored by this association of his name with Mr. Fessenden's in the honor conferred by a college crammed full with Abolitionists, is undoubtedly attributable to his late Union speech at sea. An inveterate Union man in the South may be a far more useful ally of Northern Abolitionism.

The offence which Jefferson Davis has committed of having declared sentiments favorable to Union of the States will not be overlooked by the secessionists.—*Prov. Journal.*

Yes, but those sentiments were only manufactured for the latitude of Portland. His Union speeches in Maine are for the benefit of his party friends in Maine. When he gets out South again he will "explain" his position to his secession friends; and it will be all right.

SPECULATIONS ABOUT THE TELEGRAPH.—The Boston Advertiser intimates that the Atlantic Telegraph is as yet rather a slow cash, and that the instruments will require a good deal of perfecting, to bring the line into practical use. This is all surmise, however. There are no known *facts*, we apprehend, to warrant the Advertiser's conclusions, such as are intimated below:—

We have a copy of a message which Mayor Tieman of New York, yesterday sent to the Lord Mayor of London. The directors and operators of the Atlantic Telegraph Company, will confer a great favor and will satisfy public curiosity on an important point, if they will tell us just how long it takes to transmit that message from Trinity Bay to Valentia, giving the apparent time of its departure and receipt, and the actual period of time occupied in its transmission. While we are writing, however, (11 o'clock A. M.,) some light is thrown upon this point by a second explanation from Trinity Bay, which says that the *President's reply to the Queen has not yet been transmitted*, and that it took nearly 24 hours to receive the Queen's despatch. It appears, therefore, that the telegraph is not yet in *successful* operation.

A writer in the Bangor *Union* reproduces the following story as applicable to the long-looked for telegraphic correspondence between Queen Victoria and President Buchanan:

A number of patriotic citizens of a rural district once resolved, in consideration of the distinguished order with which the corps of the military of that place had performed his duties for a number of years, to present him with an appropriate testimonial of their esteem. A sword was purchased, and an old veteran Colonel was appointed to present the same with proper ceremony. The important day arrived, and an eager populace had assembled. A platform was built, and the two military worthies faced each other thereon.—Great expectations were entertained of the presentation speech and answer. The Colonel took off his hat, scratched his knowledge box, and hesitated. At last he held out the sword and said—

"Joel, this 'ere is that 'ere sword!"

The Captain received it, and answered—

"Colonel, is that 'ere the sword?"

LOCAL AND MAINE NEWS.

KENNEBEC DEMOCRATIC NOMINATIONS.—On Tuesday the hunker democracy of Kennebec went through the useless formality of nominating the following candidates—who were selected by Committees—a very "democratic" method:

For State Senators—Solomon W. Bates of Gardiner, R. Gray of Vassalboro, and H. B. Lovejoy of Fayette.

County Attorney—Sewall Lancaster of Augusta.

County Treasurer—J. P. Hunter of Farmingdale.

County Commissioner—John Philbrick of Mount Vernon.

Sheriff—Alfred Marshall of China.

The pickpockets in Portland continue to do a lucrative business. Several fine operations were effected on Tuesday, in the crowd attendant on the arrival of the Lynn people; one lady lost her portmonnie with $25, as she was passing up the stairs of Deering Hall, and others lost considerable sums.

There are also pickpockets on the White Mountains, we perceive; for the editor of the Gospel Banner has been rusticating and complained at the Glen House for "*gouging* him to the tune of $8 75 for tea, lodging, breakfast and horse-keeping for one day."

NARROW ESCAPE.—Captain Gott, of the sch. Anthracophora, while off Long Island in Penobscot Bay, was knocked overboard while the vessel was going at the rate of nine knots an hour. He caught an oar and with it kept himself on the surface of the water until the schooner tacked and picked him up.

BOSTON AND MAINE RAILROAD.—We are indebted to Lewis H. Smith, Esq., Commissioner for Maine, for a copy of the report of the Directors of this road, which has been made, in anticipation of the annual meeting of the stockholders, to be holden at Haverhill on the 8th of September. The gross receipts of the road for the year ending May 31, 1858, were $770,851 97; expenses of every kind, including renewals, depreciation and improvements, $465,390 43. Net earnings, $305,601 54; two dividends of three per cent were paid, leaving a surplus of $65,159 54. The total cost of the road has been $4,221,671 47, exceeding the capital stock, $94,096 95. This excess has been paid from the earnings of the road. The capital has been increased $100,000 during the year by the payment of the earnings of a loan of that amount to the State, and also the claim of Mr. Hazen, amounting to $55,000. A loan of $50,000 from the State, falling due in August, will be met from the earnings of the road.

The net income of the year 1858 was $95,000 less than during the year 1857. The falling off in the receipts was $77,000 in passengers and $51,000 in freight. The expenses during the past year were reduced about $40,000. The number of miles run was 505,770 against 537,770 in 1855.

Thomas J. Southard, Esq., and daughter, of Richmond, in this State, arrived at New York in the Niagara after a brief visit to Europe, and reached home on Friday last.

☞ The subject of Dr. Paige's lecture this evening at the City Hall, will be upon Nervous and Chronic Diseases, their causes and the rationale of their cure, with new experiments. Commencing at a quarter before eight o'clock.

New potatoes are quite plentiful in our market, for the season. They are of large size and good quality. The rust has not made its appearance in any place, so far as we have heard, though it is about the time it usually makes its appearance. If it should keep off, potatoes will be cheap.—*Calais Advertiser.*

AN EXTRAORDINARY STORY. The Boston Courier (which considers itself humbug-proof republishes and half accepts an extraordinary story told by the "Alta California" of July 20, purporting to have been written by a German physician at Fort Langley on Fraser River. It gives a detailed account of the death of a miner by petrifaction, consequent upon drinking a mineral fluid known as *water of crystallization*—a solution of silica—found in a *geode*. (A "geode" is a roundish lump of stone or any other mineral. In this case, they are said to have been hollow quartz pebbles from a few inches to a foot or two in diameter. In the hollow was found this "water of crystallization," or silica held in solution. The German doctor gives a detailed statement, two column long, of the astonishing occurrence of human petrifaction in the *living* body in consequence of the drinking of this water. He says the miner in his company, named Ernest *Finsterspiegel*!—(is that the Dutch for "humbug?")—and another, named William Fiedler, were engaged in breaking open these "geodes," when the former, in a moment of thoughtlessness, drank the contents of one of them. In a very short time, he began to feel a sensation of growing *weight* "in his epigastric and at *Appochondriac* regions," and in fifteen minutes after arriving at camp, he died, in spite of all that could be done to save him by the learned and sober medical doctor. The latter, with a praiseworthy zeal for science, then proceeded to investigate this astonishing case for the benefit of humanity. He went to work upon a post mortem examination. In opening the body, he found that the knife gave forth a "grating sensation" in cutting the flesh, and examining at once with a microscope, (the Doctor seems to have had every kind of scientific instrument remarkably at hand up there in the wilderness on Fraser's river,) he found that the smaller blood vessels were solid, and apparently ossified. The contents of the stomach and upper intestines were turned into stone—quartz, in fact—(all in a few hours time, remember,) and the heart had become "as hard as, and at ungly resembling a piece of red, super." The blood in the great arteries and veins had become petrified, making the blood vessels "as rigid as pipe-stems," and the lungs remained expanded, from the same cause, viz:—petrifaction from the drinking of half a pint of water from the interior of a quarts pebble.

And such a story as this, coming from so suspicious a quarter, and bearing all the marks of a transparent humbug, the Boston Courier publishes, with the remark that "the discovery, if true, is one of great interest and importance." It may be a "discovery," certainly; but if it is, the first announcement comes in a most suspicious shape. The very circumstantiality of the statement goes far to condemn it. It is possible, at least, that the Boston Courier has been sold by the most stupid hoax of the day.

New Publications.

THE KNICKERBOCKER MAGAZINE, for September, 1858. New York: John A. Gray, 16 and 18, Jacob Street.

This oldest and best established of American Magazines is now in its 53d volume, and gives evidence that in its green old age it retains all the pristine vigor and fire of its youth, and all the strength and energy of its manhood. Its literary ability grows, indeed, with its growth, and it is apparently to know no decline. It is genial and racy as ever, and its pages are amply filled with the most scholarly and attractive articles. Louis Gaylord Clark, who has for so long given beauty and sprightliness to its column, now devotes himself mainly to the "Editor's Table," an indispensable feature of the Knickerbocker, and one whose pages are first and most eagerly sought. With Mr. Clark is now ably associated Dr. James O. Noyes. Great inducements are offered for new clubs of subscribers. Any person procuring ten new subscriptions, (advance pay at $3 per copy,) gets a deed of ten acres of land in Texas as a premium; and in the same proportion for 20, 40, 80, or 160 subscriptions—an acre for each copy subscribed for.

The fact that Miss Margaretta Fox, one of the family in which the "Rochester Rappings," so called, were first known to have occurred, has united with the Roman Catholic Church in this city, has be a blazoned in several journals, in terms which clearly imply an impeachment on her part of the integrity and truthfulness of her mother and sisters with regard to these "rappings." There is no possible warrant for this. Miss Fox continues to reside with her mother and young sister, (who were present at her baptism, last Sunday, into the church to whose doctrines she has for some time been a convert, and has never dreamed of saying or implying that any of her family were guilty of fraud or deception, in the matter of the "rappings." She has not herself officiated as a "medium" for many months past; but D. D. Home, who has likewise become a Catholic, is still the most famous and powerful "medium" in Europe, if not in the world.

We state these facts without intending to indicate any opinion on our own part as to the nature and origin of the rappings. If any one sees fit to say they are the product of imposture and jugglery, we shall not contradict him; but he will certainly do gross wrong and inflict undeserved pain, if he quotes Miss M. Fox as a witness in behalf of that hypothesis.—*N. Y. Tribune.*

Fraser River Prospects.

A victoria correspondent of the Newark Advertiser thus writes:—

I have purchased a lease and building, and put out a shingle, thus making a new branch of our California institution. On telling you this, you will agree that I think the golden story all true, but you will mistake me. I have heard all the stories detailed in San Francisco, have been in correspondence with parties who are mining upon the Fraser River, and drawn all the information that possibly could be collected from the H. B. Company and their employees, and from all, I deduce and state the following as my truthful belief:—Money will be made here by merchants who will supply the necessities of those road adventurers. Gold does exist on Fraser and Thompson rivers, and all through the country, but it has not been found in large quantities, as has been represented. The miners who have worked on Fraser river agree that the yield par diem is much less than the gold mines of California.—From my personal friends, who have worked on the river during the month of June, I have the following:

Many companies make from 50 cents to $1, 25 per day to the man; the richest bars in the river have yielded an average of $4 per diem, and the working has only been continued because of a belief that the river would fall, and in the bottom of the bars rich deposits could be found. The stories of $50, $100 and $150 per day are false. The stories regarding the commencement of want and danger of starvation, are true ones. Some report to me that they have lived on boiled nettles and snails, have paid $2 per lb. for horse meat, &c. Pork, beef and flour are selling at some of the points where the crowds have collected, at $1.50 a $2 per lb. It needs no more than this to assure me that starvation will be the fate of many.—Boiled nettles and snails may do a man for a week or so, but if healthful food does not then come in, that man is gone.

In addition to these stories, there are others got up by interested parties, and fanned into a constant flame by the Steamship Company, holders of real estate and others. These parties will have a fearful account to render.

Gold Lake, Gold Bluff and Keen River, are as pencil sketches compared with this mad excitement and wild humbug. The effect has gone abroad, and the result will be great.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

From Washington.

WASHINGTON, 19th.

Official intelligence has been received that 2000 mules and horses that were so much needed in Washington and Oregon Territories have been sent thither from the Utah expedition.

Considering that the troops were scattered over so wide an extent of country, the rapidity and concentration of about 2000 troops at Walla-Walla within one month, elicited both the wonderment and admiration of the Secretary of War, and those here associated with him in the conduct of military affairs.

With the addition of the 5th regiment of infantry, now on its way to the Pacific, it is believed the force will be sufficient for present emergencies. The troops in Washington Territory were probably ready to march, the first of August, against the Indians who attacked and defeated Col. Steptoe. The extent of the disposition among the Indians is not known. The most safe are the present military operations, that it is confidently anticipated at the War Department, that the campaign will be exceedingly short one, the war has less expensive than any former similar movement against hostile Indians.

The Treasury Department has been informed that the receipts at New York were over $400,000, of which exceeding $600,000 was for the principal and interest of the late $10,000,000 loan.

Representations of the peace commissioners will cause no change in the policy of the administration towards Utah.

Secretary Kane sometimes leaving the city tomorrow for Bloomington, and will probably be absent for four or five days.

From New York.

NEW YORK, August 19.

The sum of $60,000 of the bills of the Hatters Bank of Boston, recently stolen, has been recovered in the police of this city, in a guarded and private manner.

The post-command on the celebration had a meeting today, and fixed upon the first of September for the grand celebration. It was also decided to send a dispatch to the Lord Mayor and Common Council of London, informing them of the fact.

The British born people of this city intend to have a special celebration of the event, and America will be invited to take the initiation in the matter.

The Niagara has been examined and pronounced to be in good condition and to have received no damage in her cable expedition. Some months, however, are to be made in her rigging. Her stars have proved up to the expectation, and will be changed for heavier ones. Her crew will be removed to the North Carolina, where their new whose terms have expired, to be paid off, and the remainder attached to the other vessel.

Celebrations in honor of the Atlantic Cable.

ALBANY, August 19.

The following is Mayor Perry's reply to the congratulatory dispatch of the Mayor of New York:

To the Hon. Daniel F. Tiemann—

Albany will joyfully respond to her sister city. Our celebration on the first September shall be, so far as we can make it, equal in the great and glorious triumph of science which is designed to commemorate.

(Signed,) S. J. PERRY.

HARTFORD, Ct., 19th.

Hartford commenced celebrating the success of the Atlantic Cable last night and continued it to night. Last evening there was a grand torchlight procession, guns fired, fireworks burnt, and balloons sent up. Tonight the whole city is alive, keeping up the celebration.

PHILADELPHIA, Aug. 19.

There is a cool display of fireworks here in honor of the Send of Trade Exposition, and of the Ocean Telegraph. The American Telegraph Office is a sight brilliantly illuminated, and from the Girard House there are three transparencies bearing the inscriptions "Mill Ocean," "Old Union," "Truth."

PITTSBURG, Pa., Aug. 19.

The Atlantic Telegraph Celebration here to-day came fully up to public expectation.—Never in after was the most brilliant of the evident got up in this city. All the public and some of the private buildings were splendidly illuminated. Over 1000 lights were lighted in the windows of the St. Charles hotel. The procession was also imposing. Over a mile in length, there was an illuminated regatta, the rowing of over forty row boats, which were all beautifully decorated with flags.—The engine bells, firing of cannon and rocket gave additional relief to the demonstration.

Republican State Convention.

DETROIT, August 19.

The Republican State Convention assembled here to day, and organized by the appointment of Austin Blair of Jackson county, President. After disposing of unimportant business, the convention proceeded to nomination of State Officers, which as far as made, are as follows:

For Governor,—Moses Wisner, of Oakland County.

For Lieut. Governor,—E. B. Fairfield, of Hillsdale County.

For Secretary of State,—Nelson G. Isbel, of Genesee County.

The convention is in session this evening, and probably will not conclude its business until to-morrow.

Difficult Position.

(Correspondence of the New York Tribune.)

WASHINGTON, Aug 13, 1858.

The question in this State has been for the public mind vitally, the Administration Democrats and the Douglas Democrats, to place the one of unusual interest. From what have seen, heard and read, it is evident that the Republican party is almost assured and this campaign with a very degree of confidence. Despite their defeats are frightened. A though they wear a mask of patriotism, their general manner betrays the uneasiness and anxiety which rankles within them. They are aware of the desperate state of affairs, and are certain of precisely what they will have to overcome, and is must be an end and it is a new question, ourselves to be expect and claim. The Administration Democrats perceive that it is a spirit of rebellion, dreaming if it may be to overthrow Douglas, although they have little hope of subduing a party so numerous. The plan is talked of, and I am told that it is entertained, by the Administration, to secure the balance of power in the Legislature, and then force the Douglas to be some, between an Senator Brown and Mr. Lincoln. There can be no doubt that if they should hold the balance of power, they will use it uncompromisingly as regards Douglas. It is extremely unlikely that the Legislature will present that appearance. The Douglas party and the Administration party are in a divide one of the same Democratic party which has already been outvoted by the Republicans in the last election of State Officers. If anything that can be said to save and unite all Democrats may have taken place, it is the strength of the different parties shown in the late Republican gains. This is a solid one. One of the strongest proofs of it is Mr. Douglas, whose political influence predominant disposition to bring extremely to the uttermost the principle of keeping on the popular side of all questions, has taken the necessity of modifying and dentifying them and his conscience, with those of the Republicans. It is my impress on (which is far from judging is well founded) that the Legislature will have control of the same entirely above and maintained strength of both divisions of the Democracy, although such a union is scarce

* * * * * * *

It ended a country Senator Douglas, a few days since, arrangements were, in most instances, sufficiently calculated for instant effect, and to impress upon the assembled Democrats the greatness of the Little Giant. Attendance was large and respectable. But from appearance, whether excess of liquor was made, and of Administration patronage or general want of adaptation—he was received in dead silence, followed by with little enthusiasm, and suffered to depart in ominous pause. I hear similar accounts elsewhere. Flags are displayed, or other bunting generously, and music is said everywhere; but the requisite "spirit of mass" doesn't come.

One cause of this lack of enthusiasm is the evidently embarrassed position of the speaker. He dare not say that the people of a Territory can decide the Slavery—that would be in opposition to the Dred Scott decision. He tried to feel side-ways of the Dred Scott decision, because his force is unpopular. He is a representative Lincoln, in eloquent on the right of a State to do what it pleases; and on peace, with well pointed critical indication, the supposition policy of interference with Slavery in the Slave States. begin to claim a diseased politician.

STEAMERS.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Post-master General, the United States Mail Steamers will hereafter be dispatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the only line giving until a Through Tickets, including meals, on the Isthmus.

Transit takes *four hours, entirely by daylight*, thus avoiding the great expense of night in open boats to fever and ague, and 300 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mail, and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

For Tickets and *to sixpence* by *one of the Company's Agents before they arrive or recognized by the Agent of Panama*, and tickets thus signed may be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies in this city. C. L. JAR NTT, Agent.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington under the Act of 1837.)

76 State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of Specifications of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of an extent amounting to certainty of Inventions not patented by it not in measurable superior to any which can be offered them elsewhere. The Testimonials below given name that one is MOST SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, he idea his extensive library of legal and mechanic works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and respected practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a person more competent and trustworthy, and more capable of securing their applications in a form to secure to them as early and favorable a date thereon at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

"Boston, February 8, 1858.

Mr. R. H. Eddy has made for me TWELVE applications, all but one of which patents have been granted, and that is now pending. Such manifestation of skill and ability on his part I take the occasion to mend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

From Sept. 17 to 1857, to June 17th, 1858, the subscriber, in course of his large practice, made consecutive rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

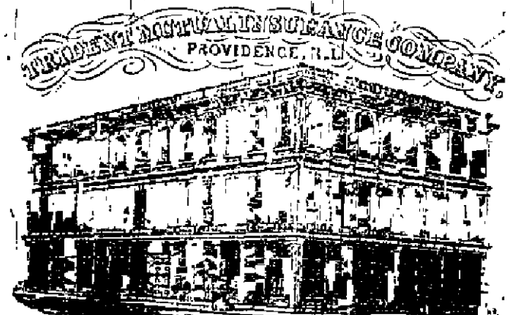
FIRE AND MARINE INSURANCE.



CHARTERED BY LEGISLATURE, JUNE, 1855.

Authorized Capital, $500,000. *Cash Capital paid in and securely invested*, $150,000.

OBED F. MILLER, Secretary. WARD COWING, President.

BOARD OF DIRECTORS.—Ward Cowing, William A. Bradford, Samuel B. Darling, Edward B. Peirce, George W. Hall, F. C. Gardiner, Obed F. Miller, Thomas A. Doyle, William B. Ryder, George Cleveland, Philip Ryder.

THIS Company Insures against Loss or Damage by Fire on Stores, Merchandise, Dwellings, Mills, Manufactories, Hotels, &c; also on Marine and Inland Transportation Cargo Risks at the ordinary rates of premium.

Losses Promptly and Equitably Adjusted and Paid.

All premiums are made specific when Policies are issued, and are to be prepaid in money; and no further assessment in case of loss is to be made on the parties so insured. The advantages of a Stock System, wh ch precludes the possibility of an assessment, are here obvious.

The Board of Directors have authorized the issues of Policies on equitably risks, detached on very low terms.

The Company expect to deserve the confidence of the public, by doing business on as favorable terms as any other similar institution, and by the utmost fairness and liberality in all their dealings.

Policies granted and issued to parties effecting insurance, at once without delay, by the undersigned, at his office.

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? Is it a truth that when leather is often wet and dried, it soon becomes hard, stiff, and crackes; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experiment in one of different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

THE LIVER

NVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These *Gums* remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—of feeling a radical cure.

Bilious attacks are cured, and what is better *prevented*, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the *stomach* and prevent the food from rising and souring.

Only one dose taken before retiring prevents *nightmare*.

Only one dose taken at night loosens the bowels *readily*, and cures *constipation*.

One dose taken after each meal will cure *Dyspepsia*.

One dose of two teaspoonfuls will always relieve *Sick Headache*.

Only one dose taken daily relieves *Costiveness*.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Anacistic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—$6 cts. per lb
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts. per lb
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates, it is excellent, and much superior to any other, as the moistness of the climate does not destroy it—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall Street, New York.

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling Davis' Patent for the Counties of Penobscot, Piscataquis, which has been received with favor, and taken the first premium wherever exhibited, has introduced an improvement in the Bee Hive and is now prepared to sell rights in connection with the Davis Patent, or sell rights to towns and individuals.

This Bee Hive, thus improved, is in the opinion of persons acquainted with the business, to be superior to every thing in use for the purpose. It covers all the requisites for the profitable management of the apiary, providing for ventilation at all seasons, and rooms for the exercise and feed of the bees, convenience for the removal of offensive, and proper separation of the swarms, and generally the health and comfort of the worker.

The boxes used in this Hive for storing honey are the best adapted in their size, for the purpose, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for the hives of individual rights.

For sale, fifty swarms of Bees with the new hives.
